# Emulators

## Retroarch

RetroArch is the best possible emulator for a lot of different system on desktop and the android side.

On android it's the best to install RetroArch on android from their website and not from fdroid or playstore.

## Cores

System Name (Core name)

- Arcade (mame 2003-plus)
- Commodore - Amiga (PUAE)
- DOS (DosBox-Pure)
- NEC - PC Enging / SuperGrafx / CD (Beetle PCE)
